Brief: AUZEX

COMINGS AND GOINGS

Explorer Auzex Resources Ltd has appointed Eugene Iliescu to the newly created role of managing director.

Auzex executive chairman John Lawton said Iliescu would manage the progression from exploration to project development of the company's major mine projects in New South Wales, Queensland and New Zealand.

"Eugene has more than 30 years experience in the resources sector and has an excellent record in operations management and project development, both in Australia and overseas," Lawton said.

"He has held senior roles with Ross Mining in the Gold Ridge mine in the Solomon Islands, with Duke Energy in the development of the Bass Strait Tasmanian

natural gas pipeline and with the Geodynamics geothermal project in South Australia."

Iliescu is currently a non-executive director for Kenex Knowledge Systems and provides marketing consultancy services to Kenex and Middle East entities.
