

BULLABULLING PROJECT RESOURCE ESTIMATE - AUZEX RESOURCES LIMITED

By InfoMine - CompanyProperty Mine, August 16, 2010 at 8:00 AM

Auzex Resources announced a new JORC Mineral Resource of 41,517,000 tonnes grading 1.5 g/t gold for 1.98 million contained ounces of gold at a 0.7 g/t gold cut off for the Bullabulling Gold Project, Western Australia. The new Mineral Resource estimate has been restricted predominantly to mineralisation within the Bullabulling Trend, which extends over approximately 6km strike and where gold mineralisation exhibits excellent lateral and vertical continuity, and is open in all directions.
